

A COMPLETE CUTTING FLUID SOLUTION

Industrial fluids and lubricants designed to exceed international standards of performance and regulatory compliance

FEATURED PRODUCTS

CIMTECH 320Z

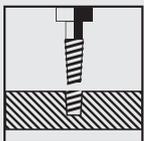

Designed for the aerospace industry and is recommended for moderate to heavy/severe duty machining and grinding operations, including creep feed grinding, on non-ferrous or ferrous metals. Delivers 100% machining visibility via a low PH, non oil formulation which also improves component cleanliness and operator acceptance. Low foaming even when used with deionized water. The Lubricity of this fluid on titanium, Aluminium and even cast iron or steel makes it ideal for aerospace, automotive and general industry applications where a premium fluid is needed. Non staining on Aluminium Alloys (2024, 6061, 7050, 7075, 380, 390). It is also resistant to growth of bacteria including Mycobacterium minimising and even eradicating the need for tank side additives provided recommended concentration is maintained.

MILCOOL®1311

A heavy-duty, soluble metalworking fluid blending the reliability of traditional soluble fluids with industry leading technology to deliver performance which meets the market. It is recommended for turning, drilling, milling, reaming, boring, tapping, roll/form tapping, broaching, sawing and most grinding applications., sawing and grinding of ferrous and most non-ferrous metals.

CIMSTAR®50-60K

A premium heavy-duty Semi Synthetic metalworking fluid for machining and grinding of ferrous and most non-ferrous metals. is recommended for turning, drilling, milling, reaming, boring, tapping, broaching, sawing and most grinding applications. Non staining on Aluminium Alloys (2024, 6061, 7050, 7075, 380, 390). Not to be used on Magnesium alloys

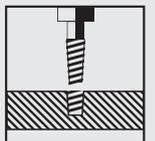

MORE THAN JUST FLUID TECHNOLOGY

PRODUCTS ALSO AVAILABLE IN THE FOLLOWING AREAS

Synthetic Metalworking Fluids - Semi Synthetic Metalworking Fluids
Soluble Metalworking Fluids - Protection Against Corrosion
Straight Cutting & Grinding Oil - Slide Way Oils - Metal Forming Products
Hydraulic Oils - Band Saws - Cleaners - Specialty Products

Cimcool the leader in fluid technology world wide for more information on the following products goto www.cimcool.com or contact our distributor **Iscar Australia**
